Nikkei Medical Online Doctor Verification System

Nikkei Medical Online has adopted a rigorous verification system for doctors in order to limit the perusal of articles introducing actual case details, etc. to doctors.

In addition to usual registration items, this verification system, although perhaps a little irksome, requires doctors also to input such detailed information as name of graduated university and year of graduation, which enables us to confirm that the applicant is indeed a doctor.

Furthermore, to prevent impersonator registration by others, notification of completion of registration is sent to the registrant's workplace by post for confirmation.

By this double checking through detailed registration input by doctors themselves and confirmation of location, Nikkei Medical Online is able to bring together active member doctors with a strong awareness of information gathering.
